

Login to Microsoft Teams – Quick start

You can login to Microsoft Teams in multiple ways. It is possible to install and log in to Microsoft Teams using Windows 10 Teams app, Linux Ubuntu Teams App, Apple Mac Teams application or Android app. [You can download the Microsoft Teams application for any device for free.](#)

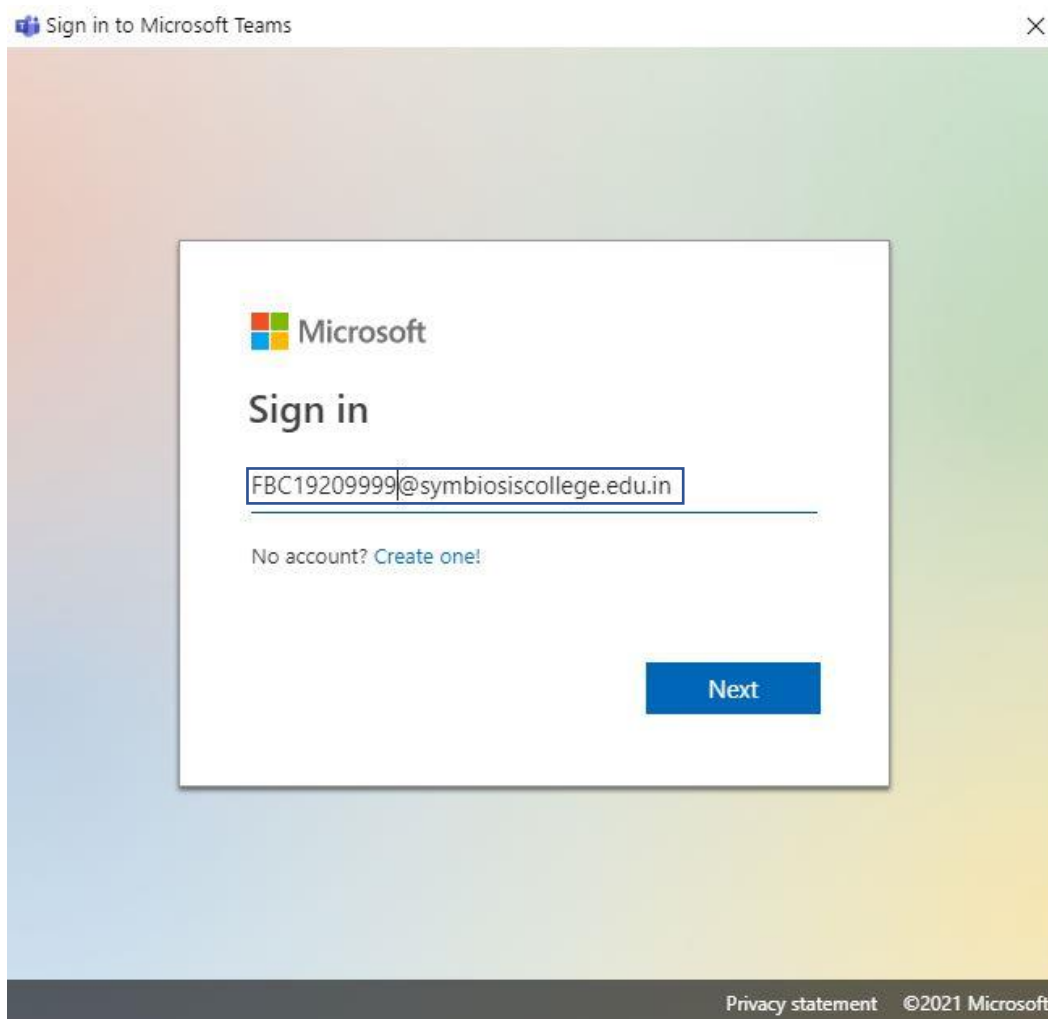

It also possible to work with Microsoft Teams online via a web browser. All modern browsers support Teams app functionality. Note that Internet Explorer 11 does not support Microsoft Teams online.

Login at Microsoft Teams using Windows 10 application

Microsoft Teams Windows 10 app could be started directly from the Start menu. Select the Windows sign and past "teams" into the search window.

In the Teams app window put your email and password and login to Microsoft Teams.

Login to Microsoft Teams online via browser

Open the Microsoft Teams Website: <https://teams.microsoft.com> and enter your email and password.

If the password you typed is incorrect, you'll see a message that says:

Your account or password is incorrect. If you don't remember your password, reset it now.

Use below link to reset password.
